Eat Safe, Stay Healthy

BMH has standard and stringent requirements for food purchasing, quality examination, inventories and food-safety-certificates.

We follow standard and qualified procedures of cleaning, soaking and washing vegetables and other ingredients to eliminate impurities. In Pre School, Chefs visit classrooms from time to time to check students' meals with the purpose of further improving student's meals. Our school attaches great importance to food safety and our Safety Officers and Deputy Heads oversee our operations to uphold our high standards.

In January, we surveyed students about their food and have adjusted our menu in response to their feedback (see below).

The Power of Play

Over recent weeks you might have noticed a real emphasis on Play in the Pre School. It is something that we seek to improve and enhance the provision of within our Pre School. Teachers have been focusing their professional development around play and K2 hosted a coffee morning for K2 parents about Playful Inquiry.

The thing about play is that it is really powerful. You do not need to understand the language of the person that you are playing with because play is a language that everyone understands. It is such an important learning tool for all of us; adults and children.

Play allows us to develop a sense of self and is a tool for learning. It does not matter if you are 2 or 102 there is ALWAYS time for play, even as a Prep student. Some of our best memories are often moments of play. It is through play we find and express our core truths.

The great thing is you can do it now, wherever you are! Whatever you have planned for the weekend make sure you find some time for play with your child. It can be with their favourite toys, it can be outside with a football or in the kitchen; the opportunities are endless.

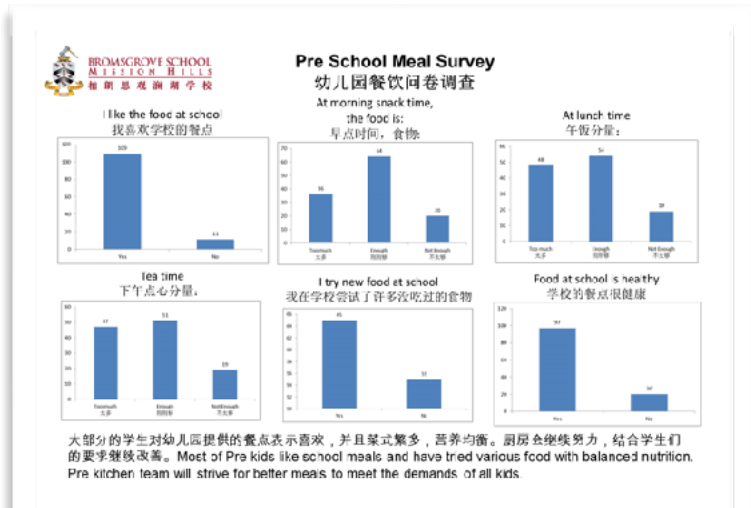

Don't underestimate the power of play – whatever form it takes!

Prep School Inspection

On March 12th, BMH welcomed the official inspection team from both the Bureau of Education of Futian District and the Bureau of Education of Longhua District, led by Ms. Haiping Wu, the Director of the Department of Basic Education, from the Bureau of Education of Shenzhen Municipality. The inspection mainly focused on five domains, including curriculum design, teaching materials selection, admissions, foreign teachers' qualifications and commercial advertising.

Ms. Penny Liu, the deputy of BMH Prep School offered a comprehensive report regarding BMH's self-inspection against school operation standards, and accompanied the inspection team for the campus tour, interviews and document verification processes.

The leader of the inspection team, Ms Haiping Wu, granted full recognition to BMH after three hours of meticulous inspection. Meanwhile, she also offered a positive appraisal of our well-structured school development and excellent school philosophy. In addition, she praised our qualified teaching team, featured curriculum design and campus culture construction.
